

# Allstar Fore

## Perennial Ryegrass

USE	SOWING RATE	ENDOPHYTE LEVEL	BENEFITS	RATING
Golf courses	30-40 (g/m <sup>2</sup> ) (20-30 when oversowing)	Low	Superior resistance to disease	Turf quality ■■■■■■■■■■
Sports fields			Excellent turf quality	Genetic colour ■■■■■■■■■■
Parks & reserves			Superior winter colour retention	Wear tolerance ■■■■■■■■■■
Home lawns			Superior wear tolerance	Gray Leaf Spot ■■■■■■■■■■
				Crown rust ■■■■■■■■■■

ALLSTAR FORE perennial ryegrass (*Lolium perenne*) shines due to its superior resistance to Gray Leaf Spot, Red Thread, Crown Rust and Pink Snow Mould, thus reducing inputs. It also has excellent turf quality at all locations and under all maintenance levels in the 2016 Perennial ryegrass NTEP. The very dark green colour with superior winter colour retention makes Allstar Fore perfect for all uses from winter overseeding to permanent turf. This cultivar shows superior wear tolerance at all cutting heights for use on sports fields, golf courses and home lawns. Allstar Fore has excellent resistance to many stresses including winter, drought and saline water. High persistence with great looks.

NTEP PR 2016 TURF QUALITY Schedule B. 1-9, 9=Best		NTEP PR 2016 TURF QUALITY @ All locations 1-9, 9=Best		NTEP PR 2016 GRAY LEAF SPOT @ All locations 1-9, 9=No Disease		NTEP PR 2016 RED THREAD @ Transition Zone 1-9, 9=No Disease
